2. The records that we hold about the vaccination programme do not record information about vaccine wastage and therefore we give notice under Section 17 of FOISA that we do not hold this information. We estimate wastage to be less than 3%.
3. As part of the vaccination programme The State Hospital would have needed to complete paperwork for any vaccine wastage except when it was caused by leftover doses. As we hold no records of any reasons for vaccine wastage, any wastage was due to leftover doses.
