The State Hospital Equality Impact Assessment (EQIA)

The 'Guidance to Support Completion of the Equality Impact Assessment' should be read prior to completing this template.

Please note, the EQIA should be proportionate to the significance and coverage of the proposed policy, strategy, protocol, project, service or function and should take cognisance of the nature of the environment and patient group.

Screening questions to determine if the document requires a detailed EQIA.

6. Thinking about the key stakeholders you have identified in no. 3, please explain how the proposal being assessed supports the organisation to eliminate any potential unlawful discrimination, harassment and victimisation of these groups, promoting equality of opportunity and fostering good relationships between all stakeholders.

This policy applies equally to all staff employed on a substantive basis within the State Hospital, whether full-time, part-time, permanent or fixed term.

The policy ensures that clear and objective criteria are used to make decisions regarding support for further and higher education and helps to ensure that individuals are not disadvantaged due to age, gender or maternity (or any of the other protected characteristics).

Ensuring that all decisions regarding authorisation and provision of support for further/higher education are applied in a consistent and transparent manner provides a system of governance and reassurance and supports positive employer/employee relationships.

7. Thinking about the key stakeholders you have identified in no. 3, please identify potential inequalities of outcome which may arise in relation to socio-economic disadvantage (low income), including material deprivation.

This policy applies to all staff groups and across all disciplines and grades and aims to help reduce financial barriers to engagement in further education by staff in lower graded posts through provision of funding support and an associated Lifelong Learning Advance and Repayment scheme.

Please discuss the EQIA with the Service Lead/Director and complete below to indicate this person is in agreement with your findings.
