1. Details of requests

There were 176 requests for information under the Freedom of Information (Scotland) Act 2002 from 1 April 2021 until 31 March 2022. These were received from a variety of sources, and included information relating to patient activities, our telephony and messaging systems, the number of staff employed and organisational procedures.

3. Summary of exemptions applied

Just over a quarter of requests were for information that the State Hospital did not hold (26%), however 67% of request were answered with a full disclosure of information, with a further 4% receiving a partial response.

One request was refused on the grounds of cost and two (2%) requests were refused under section 16 due to their vexatiousness.

4. Reviews / Appeals to the Scottish Information Commissioner

There were four requests for review, all of which upheld the original response.
There were no appeals to the Scottish Information Commissioner received this year.

5. Cost of dealing with requests

It is very difficult to make more than an estimate of the cost as the work involved varies greatly for each request. All requests must be recorded, processed, acknowledged then referred to the relevant departmental to collate a response, which may involve many hours of work. We only estimate the cost of requests that are expected to take over 40 hours of work to complete.
