

**FOI-026-22 APPENDIX**

**Cervical Health & Cytology Testing**

| Type                     | Test                                             | Test Numbers per Annum | Instrument/Supplier |
|--------------------------|--------------------------------------------------|------------------------|---------------------|
| Cervial Health Screening | HPV - Human Papilloma Virus - NAAT               |                        |                     |
| Cervial Health Screening | Liquid Basec Cytology (LBC) Gynaecology Cytology |                        |                     |
| Cervial Health Screening | cPAP - Cytology                                  |                        |                     |
| General Cytology         | HPV - Human Papilloma Virus - NAAT               |                        |                     |

**Microbiology Testing**

| Type                              | Test                                                                    | Test Numbers per Annum | Instrument/Supplier |
|-----------------------------------|-------------------------------------------------------------------------|------------------------|---------------------|
| Sexually Transmitted Infections   | CT - Chlamydia trachomatis - Nucleaic Accid Applification Test (NAAT)   | 24                     |                     |
| Sexually Transmitted Infections   | NG - Neisseria gonorrhoeae - NAAT                                       | 24                     |                     |
| Sexually Transmitted Infections   | TV - Trichomonas vaginalis - NAAT                                       |                        |                     |
| Sexually Transmitted Infections   | TV - Trichomonas vaginalis - Culture/Microscopy                         |                        | N/A                 |
| Sexually Transmitted Infections   | MG - Mycoplasma Genitalium - NAAT                                       |                        |                     |
| Sexually Transmitted Infections   | MG - Mycoplasma Genitalium - Culture/Microscopy                         |                        | N/A                 |
| Sexually Transmitted Infections   | HSV 1 - Herpes Simplex Virus 1 - NAAT                                   |                        |                     |
| Sexually Transmitted Infections   | HSV 2 - Herpes Simplex Virus 2 - NAAT                                   |                        |                     |
| Sexually Transmitted Infections   | BV - Bacterial Vaginosis - NAAT                                         |                        |                     |
| Sexually Transmitted Infections   | BV - Bacterial Vaginosis - Culture/Microscopy                           |                        | N/A                 |
| Sexually Transmitted Infections   | CV - Candida Vaginitis - NAAT                                           |                        |                     |
| Sexually Transmitted Infections   | CV - Candida Vaginitis - Culture/Microscopy                             |                        | N/A                 |
| Blood Borne Viruses               | HIV 1 - Human Immunodeficiency Virus 1 Viral Load - NAAT                |                        |                     |
| Blood Borne Viruses               | HBV - Hepatitis B Viral Load - NAAT                                     |                        |                     |
| Blood Borne Viruses               | HCV - Hepatitis C Viral Load - NAAT                                     |                        |                     |
| Respiratory Viruses               | Flu A - Influenza Type A - NAAT                                         |                        |                     |
| Respiratory Viruses               | Flu B - Influenza Type B - NAAT                                         |                        |                     |
| Respiratory Viruses               | RSV - Respiratory Syncytial Virus - NAAT                                |                        |                     |
| Respiratory Viruses               | hMPV - Human Metapneumo Virus - NAAT                                    |                        |                     |
| Respiratory Viruses               | Adv - Adenovirus - NAAT                                                 |                        |                     |
| Respiratory Viruses               | RV - Rhinovirus - NAAT                                                  |                        |                     |
| Respiratory Viruses               | Paraflu 1 - Parainfluenza Type 1 - NAAT                                 |                        |                     |
| Respiratory Viruses               | Paraflu 2 - Parainfluenza Type 2 - NAAT                                 |                        |                     |
| Respiratory Viruses               | Paraflu 3 - Parainfluenza Type 3 - NAAT                                 |                        |                     |
| Respiratory Viruses               | Paraflu 4 - Parainfluenza Type 4 - NAAT                                 |                        |                     |
| Respiratory Viruses               | Covid-19 - SARS-CoV-2 - NAAT                                            | 675                    |                     |
| Respiratory Viruses               | Respiratory Syndromic Testing - NAAT                                    |                        |                     |
| Transplant Transmitted Infections | CMV - Cytomegalovirus Viral Load - NAAT                                 |                        |                     |
| Transplant Transmitted Infections | EBV - Epstein Bar Virus Viral Load - NAAT                               |                        |                     |
| Transplant Transmitted Infections | BKV - BK Virus Viral Load - NAAT                                        |                        |                     |
| Hospital Acquired Infections      | Methicillin-resistant Staphylococcus aureus - MRSA - NAAT               |                        |                     |
| Hospital Acquired Infections      | Methicillin-resistant Staphylococcus aureus - MRSA - Culture/Microscopy | 7                      | N/A                 |

| Type                         | Test                                                              | Test Numbers per Annum | Instrument/Supplier |
|------------------------------|-------------------------------------------------------------------|------------------------|---------------------|
| Hospital Acquired Infections | Clostridium difficile - C.Diff - NAAT                             |                        |                     |
| Hospital Acquired Infections | Clostridium difficile - C.Diff - Culture/Microscopy               | 3                      |                     |
| Hospital Acquired Infections | Carbapenem Resistan Enterobacteriaceae - CRE - NAAT               |                        |                     |
| Hospital Acquired Infections | Carbapenem Resistan Enterobacteriaceae - CRE - Culture/Microscopy |                        | N/A                 |
| Hospital Acquired Infections | Vanamycin Resistant Enterococcus - VRE - NAAT                     |                        |                     |
| Hospital Acquired Infections | Vanamycin Resistant Enterococcus - VRE - Culture/Microscopy       |                        | N/A                 |
| Gastrointestinal Infections  | Gastrointestinal Syndromic Test - NAAT                            |                        |                     |
| Gastrointestinal Infections  | Gastrointestinal Syndromic Test - Cuture Microscopy               |                        | N/A                 |
| Gastrointestinal Infections  | Norovirus - NAAT                                                  |                        |                     |
| Gastrointestinal Infections  | Gastrointestinal Parasitology - NAAT                              |                        |                     |
| Gastrointestinal Infections  | Gastrointestinal Parasitology - Culture/Microscopy                |                        | N/A                 |
| Other Infections             | Meningitis Syndromic Test - NAAT                                  |                        |                     |
| Other Infections             | Enterovirus CSF - NAAT                                            |                        |                     |
