

**Request Reference:** FOI/027/23

**Published:** 21 August 2023

**Information requested:**

How many people were treated in or admitted to hospitals in your health board area in each year since 2018 with:

(a) Malnutrition

(b) Scurvy

(c) Ricketts

For each condition, please list how many of those treated for each condition in each year were children.

**Response:**

For the years 2018 to 2022; no patients were treated in or admitted to the State Hospital with any of the conditions.

In 2023, one adult patient was treated for malnutrition. No patients were admitted or treated for Scurvy or Ricketts.
